CREATING THE UNFORGETTABLE

Jubilant is a Pune-based event management and production company with its own in-house production house, creating celebrity, corporate and wedding experiences from concept to completion.

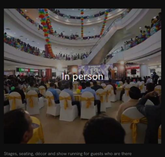

We do it live

Our guiding principle: anything worth doing has to look amazing to the guests in the room, to the stage cameras and on every phone in the crowd.

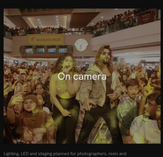

Experience (+) Impact

Everything we build is made to be felt in the room and shared beyond it.

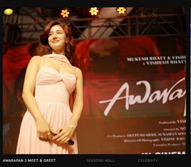

Stages, seating, décor and show running for guests who are there on the day.

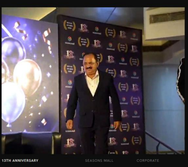

Lighting, LED and staging planned for photographers, reels and every raised phone.
